AI and build tools: Claude Code, Codex, Figma MCP, Figma Make, Figma AI, Nano Banana, Midjourney, Google Flow, Google Stitch, Lovable, Replit, NotebookLM, No-code Development

WORK EXPERIENCE

CodeBuddy | Pune

Product Designer | Feb 2025 - May 2026

- Led product design across seven client products in healthcare, security, creator economy, and enterprise SaaS, owning UX research, user flows, responsive design, design systems, prototyping, and Figma developer handoff while working directly with founders, product managers, and engineers.
- Led end-to-end design for N1.care, an AI clinical intelligence platform supporting patient management, biomarkers, genetics, diagnostics, and clinical workflows. Shaped 10 modules from concept to production with a 23-person team and built an 80+ component design system with 64 icons and 86 documented colors.
- Created WCAG-compliant accessible components and a data visualization library for clinician, patient, and administrator personas.
- Co-led product design for Riskabilitie, an enterprise risk management SaaS, facilitating stakeholder workshops and translating research into multi-level workflows, analytics dashboards, reporting, and product decisions.
- Owned product design and front-end engineering for Proposal Buddy, an AI proposal management platform with proposal generation, CRM workflows, analytics, approvals, pitch deck creation, and document sharing. Used Claude Code and Codex to accelerate prototyping, design system management, and deployment.
- Designed and developed 7+ production Framer websites for startups and client businesses.

WORK EXPERIENCE, CONTINUED

Duggup | Bangalore (Remote)

Founding Product Designer | Feb 2023 - Jan 2025

- Led end-to-end product design for the Duggup web and mobile applications as the sole designer, working with the product owner and a cross-functional development team from inception to launch.
- Shipped version 1.0 in five months and reached 2,000+ users in the first week.
- Built a cross-platform design system that reduced testing and redesign time by 50% across web and mobile.
- Shipped new features every two weeks and ran A/B tests with developers to improve key user flows.

Consult Anubhav | Vadodara

UX Designer | Jun 2022 - Jun 2023

- Led end-to-end UX and UI design for Draftsy, a fantasy sports application for BREN LLC, increasing engagement by 20% through UX iterations and A/B-tested design changes.
- Conducted product research, field studies, and usability testing to refine user experience and product features.
- Led a team of three designers across a food delivery service, a logistics and shipment platform, and an internal enterprise survey tool, owning research, design, and handoff.

Healthplix Technologies | Bangalore (Remote)

UX Design Intern | Apr 2022 - Jun 2022

- Expanded the Healthplix design system with 26 components and variants, achieving 100% UI consistency and reducing design-to-development handoff time by approximately 20%.
- Designed admin panels and on-site marketing campaign interfaces for internal teams, reducing campaign launch turnaround time by 33%.

Freelance | Vadodara (Remote)

Freelance Product and UX Designer | Mar 2021 - May 2022

- Redesigned Baroda Public School's Learning Management System, increasing student interaction by 35% and course completion rates by 20%.
- Led brand identity design for a client, driving 350% audience growth within two months.
- Delivered user flows, usability improvements, logos, marketing posters, carousels, and campaign assets across diverse client projects.
